

# Pro Cut 40

## Plasma Cutting

DC | 1 Faz

- It is produced with inverter technology and electricity consumption is low.
- Pilot arc technology; The arc start-up is easy, cutting capacity and cutting speed are high and the life of the consumables is longer.
- Over temperature and amperes have different protection and alarm functions (low air pressure, torch, etc.), warning light on the front panel.
- High speed cutting with advanced arc technology.

**Applications:**  
Plasma

**Cutting Capacity:**  
20 mm (Max.)  
12 mm (Recommended)
