

BLUWELD T 200

TIG

DC | 1 Phase

CE

Applications:

TIG
MMA

- TIG welding machine manufactured with inverter technology.
- High frequency (HF) capability, arc starting is achieved without touching the tungsten electrode workpiece.
- Voltage fluctuations ($\pm 10\%$) caused by the network are shattered and prevent malfunctions which may occur in this network.
- With 2T / 4T trigger settings, it provides ease of welding in long or precise work.
- .Digital ampermeter indicator.
- Compatible with generators.

Input Voltage	Frequency	Power	Power Factor	Current Range	Rated Output Current	Voltage and Duty Cycle (40°C)	Dimensions (YxGxD)	Weight	Protection Class
1~220V $\pm 10\%$	50/60 Hz	5,2 Kw	0,75	10-200 A	62V	200 A, 40 %	231x135x395 mm	7 Kg	IP 21S
